SUMMARY

“Computer Science and Engineering graduate with expertise in Java, Kotlin, React.js, Firebase, HTML, CSS, and JavaScript. Experienced in developing Android and web applications through internships and academic projects. Seeking an opportunity to contribute as a Software Engineer or Frontend Developer.”

EDUCATIONAL DETAILS

- **Bachelor of Computer Science and Engineering** – 8.7 CGPA
Shree Devi Institute of Technology Kenjar, Mangalore
- **Pre-University (Physics, Chemistry, Maths, Biology)** – 92.33%
Government Pre-University College Sringeri, Chikkamagaluru
- **Secondary Education** – 90.4%
Karnataka Public School Begar, Sringeri

SKILLS

- Programming Languages : Java, C, Kotlin, Python
- Frontend Development: HTML, CSS, JavaScript, React JS
- Android Development: Jetpack Compose, Material Design 3, MVVM Architecture
- Databases : MySQL, Firebase Firestore (NoSQL), Room Database
- Tools and Technologies : GitHub, Android Studio, VS Code , Google AI Studio

INTERNSHIPS

- **Web Development Intern | Corizo Edutech** (in collaboration with IIT Bombay's Mood Indigo)
 - Developed 5+ responsive web pages using HTML, CSS, and JavaScript.
 - Optimized layouts for mobile and desktop compatibility.
 - Collaborated on frontend development projects following modern web standards
- **Android App Development using Generative AI | MindMatrix**
 - Developed Android applications using Kotlin, Jetpack Compose, and Firebase.
 - Implemented MVVM architecture for maintainable and scalable code.
 - Integrated Firebase Authentication and Firestore database services.
 - Utilized Google AI Studio to build AI-assisted application features.

PROJECTS

Braille To Text and Voice Translator

- Built an AI-powered application to convert Braille images into text and speech.
- Applied image processing using OpenCV for Braille recognition.
- Integrated Text-to-Speech (TTS) for audio output.
- Tech Stack: Python, OpenCV, TTS. → github.com/KAVANAMP/braille-translator

Grama Angana-Community Hall Management Android Application

- Created a community hall booking application using Kotlin and Firebase.
- Integrated role-based authentication and real-time booking management.
- Built modern UI using Jetpack Compose and MVVM architecture.
- Tech Stack: Kotlin, Firebase, Jetpack Compose, MVVM. → github.com/KAVANAMP/grama-angana

CERTIFICATIONS & ACHIEVEMENTS

- Successfully completed an Employability Enhancement Skills Programme.
- Frontend Web Development Certification – Infosys Springboard
- Introduction to Gemini for Google Workspace – Google Cloud
- Android App Development using Generative AI Internship – MindMatrix
- Participated in AI Bootcamp: Disease Prediction – DevTown, MSME & Startup India
- Attended a Full Stack Development workshop conducted by Wayspire.
